NEW HAZELTON TEAM WON EXCITING HOCKEY CONTEST

Defeated Old Hazelton Last Saturday Night by Four Goals Against Two--MacKenzie and Reber the Stars--Combination of New Hazelton Forwards Won

In a stubbornly fought and a closely contested game of hockey last Saturday night the New Hazelton hockey team beat the old town septette on their own chip-pile by the score of four goals to two.

The game throughout was very fast and the large crowd were kept in feverish excitement from the start until the referee blew the final whistle. Both teams were in good form and the ice was favorable to fast hockey. New Hazelton was never headed from the time Warner grabbed a fast pass from Mitchell and beat the old town guardian of the net.

The first period of the game was replete with many sensational plays. The New Hazelton boys worked their combination with such mechanical precision and at a speed that took the old town off their feet, and although they got right in on the defence that Darling of a goal tender was impregnable. Finally, after a nice bit of combination Mitchell slammed the puck which went to MacKenzie on its ear and he golfed it into the net, leaving the score at the end of the period 2-0 in favor of the new town.

Different tactics were adopted by both teams for the second period. The old town switched the players and taking a brace became serious factors in the argument. New Hazelton, however, kept up their three-man attacks on the old town citidel which are so pleasing to a crowd and which exemplify real hockey. Their work was cheered by old town and new alike. The outstanding features of this section were the scintillating rushes of MacKenzie and Reber. The latter is distinctly an individual player and at that game he is a package of real speed. MacKenzie is more at home in the combined rushes and is always calling for more speed, but when he gets away from the wing men there is always something doing single handed. In the middle of the period Reber took a desperation shot which fooled, not the goal keeper, but the goal umpire. The tally was counted under protest by Capt. McDonald. Shortly after this Sinclair caught the puck on the rebound and the score was tied. New Hazelton then went back to the combination and shortly before time was called MacKenzie scored again after a very pretty rush of the forwards the full length of the rink. Score 3-2 for New Hazelton.

In the final frame of the game both teams went on the ice showing the effects of the fast pace and the heavy body checking, but determined nevertheless.

It could hardly be expected that the fast clip could be maintained and after the first few minutes the change was noticed. Instead of the aggressive combined or individual attacks that marked the first two periods, the play de-

generated into half hearted dashes and long shots. Much rough-house work was resorted to and Warner took the count as a result of a cross-check by Kinghorn who caught the former in the throat with the stick and planted his knee in his stomach. This was done some seconds after the puck had been passed.

The teams were weakening fast and Sinclair played out twice in the last ten minutes. With but two minutes to play MacKenzie took a lift on the puck and it landed in the old town nets. No more scores were made and New Hazelton took one step up the ladder to the Duncan Ross cup.

New Hazelton must now trim Smithers twice and old Hazelton must beat them once to give the new town a chance at the silverware. With a few more practices the local boys feel equal to the task.

Roy McDonald and Edgar Harris played their best game of the season, although once or twice Edgar got a bow in his neck and took a flyer up the ice. Jack Warne is improving rapidly in goal. The teams were:—

New Hazelton	Hazelton
Warne goal	Darling
E. Harris point	O'Shea
McDonald cover	Kinghorn
MacKenzie rover	Reber
Al Harris centre	North
Mitchell left wing	Sinclair
Warner right wing	Blythe
Referee—Dodemead	
Time Keepers — Larmer and MacCormick.	

FIRE DESTROYED HOUSE AND STORE

C. V. Smith Suffered a Heavy Loss by Sunday Morning Blaze—Some Insurance Carried

About six o'clock last Sunday morning fire wiped out the store and residence of C. V. Smith in the old town. The origin of the blaze is a mystery, as everything was in good order late Saturday night, when Mr. Smith and his family retired to their beds. The fire started in the upper part of the store and—as near as the first arrivals could judge—some distance away from the stove. The alarm was immediately sounded and the entire population turned out and fought the flames, but with little success as the fire had gained such headway that it was beyond control.

The entire stock of general merchandise, together with the building, the house adjoining and much furniture was lost. Mr. Smith and family were able to get out uninjured and they saved some of their personal belongings. It is understood that about \$8,000 insurance was carried, but this would not begin to replace the buildings and stock.

C. V. Smith is one of the real old timers in Hazelton and for

many years he has been conducting his general store business at the foot of the hill going into the town. He had one of the finest places in old Hazelton and in summer his garden and lawn was the delight of the residents and visitors. Mr. Smith was also a good business man and he and his family have the sincere sympathy of the community in their loss. Mr. Smith's is preparing to re-open in the old town where he intends to remain.

WHO WOULD YOU PUT ON LINE-UP?

The Herald Wants Your Suggestions for an All-Star Seven from Three Teams

Much speculation has been going on locally as to who would catch a place on an all-star team picked from the three teams now competing for the Duncan Ross cup. Were such a team organized and sent outside, there would be few amateur teams to beat it. The Herald wants to hear from all the hockey enthusiasts as to what player, in their opinion, is best fitted for the various positions. A record of these suggestions will be kept and published each week in the Herald to keep you posted. One suggestion for each position must be sent.

Get busy at once. Mail your replies, signing your name, to the Herald, or hand them in to this office. The name is not for publication, but to prevent repetition.

HUNDRED DOLLAR ORE ON FIRST CAR

Harris Boys Have Received Smelter Returns—Another Car Next Week—More Men on

Hundred dollar ore is what the Harris boys are shipping from the American Boy this year. The returns from the Trail smelter on the first carload have been received. It was hundred dollar ore. The silver run 140 oz. and lead 40 per cent. Gold values of .06 and zinc 16 per cent.

Next week the boys will start hauling ore for the second shipment. The stuff is all sacked and will not require many days to get it loaded at New Hazelton.

The force at the mine is also being increased and more development work is being undertaken

Live Stock and Furniture For Sale

Having decided to give up house-keeping, the following live stock and furniture is for immediate sale: One Jersey cow, in milk; one grade cow; one saddle horse, good for lady or gentleman; twenty-four well-bred leghorn chickens; several beds, springs and mattresses, dining-room table, chairs, etc. These goods must be sold at once. All are in good shape. Apply Mrs. V. W. Smith, Tenth Ave., New Hazelton.

Supt. Ramsey, for Foley, Welch & Stewart, came down from the front yesterday.

FOURTEEN CARLOADS OF ORE FROM THE SILVER STANDARD

Nearly Five Hundred Tons Have Gone to the Smelter—More Ore Being Taken Out—All Teams Busy Hauling—Big Development is Promised for This Year

The ore shipments promised last fall to be made this year during the sleighing were no myth. Ever since there was any snow at all there have been teams hauling ore to New Hazelton from the Silver Standard and from the Harris mines. Mention has already been made of a ten car shipment from the Silver Standard and of the one car shipment from the Harris mine.

On February 7th the Silver Standard shipped two more cars and on the 9th another two car lot went to the smelter. Up to Monday night the Glen mountain property had sent to the Trail smelter this year four hundred and seventy-three tons of high grade ore. The end is not yet. From thirty to thirty-five tons are being brought down daily and at the mine Supt. Haskins is still taking out ore.

Plans are under way now for

the new development to be under taken in the spring, or as soon as the present shipping season is over. On Saturday night Angus Stewart was in town in consultation with D. McLeod, and A. L. McHugh, and J. W. Stewart is expected here in the near future. Upon his arrival it is expected that the plans will be ready and an announcement can be made. There will be some big work going on at the Glen mountain property this year and a much larger force of men will be employed.

Exhibition Ore

Two shipments of ore for exhibition purposes were sent out this week by the New Hazelton District Mine Owners' Association. One was for the Prince Rupert board of trade permanent exhibit and the other went to Saskatoon.

CITIZENS' ASSOCIATION ELECT OFFICERS AND START AGAIN

Many Important Matters Introduced--Executive Committee has a Busy Season Before it--Fire Department Has Been Enlarged--Repairs for the Indian Bridge

There was a good attendance of citizens at the re-organization meeting of the Citizens' Association held in the school hall last Monday night. Among those present were several of the more recent residents who are here to stay and who are taking an interest in the welfare of the town.

President W. J. McKenzie was in the chair and after calling the meeting to order he called upon the secretary to read the minutes of the last general meeting. The financial report was also presented which showed a good balance in the bank and there is also quite a sum due the association for dues. If these were collected there would be nearly double the present balance.

The meeting was then thrown open for the election of officers, which resulted as follows:—

President—W. J. McKenzie
Vice-President—G. O. Graham.
Secretary—C. H. Sawle
Treasurer—E. B. Tatchell
Executive Committee—B. C. Affleck, F. C. McKinnon, C. C. Fraser, Jas. Richmond and A. M. Ruddy.

Fire Chief Geo. Wall reported upon the work of the brigade and asked that a number of men be appointed from the lower end of the town to look after the fires down there. He will at an early date submit a report of equipment on hand and required.

The new firemen elected were: I. Anger, S. H. Crum, Wm. Larmer and Jas. Riley.

The executive committee was instructed to put forth an effort to secure new members to the association and to stir up more

interest in the work. The executive will also take up the matter of publicity at its first meeting.

A meeting with General Superintendent W. C. C. Mehan of the G. T. P. will be arranged if possible at a very early date to take up with him matters in connection with improvements at and around the local railway yards. It is expected that practically everything the association will ask for will be granted as all are very necessary and it was felt that it only required drawing the general superintendent's attention to them.

B. C. Affleck brought up the matter of repairs to the old Indian bridge to preserve it as one of the attractions for tourists and travellers and the association heartily approved of the work being done. The committee will look into the matter at the earliest possible date.

The meeting then adjourned until the first Monday in March.

Burns Proved Fatal

It was learned here last week with general regret that the eldest child of C. G. and Mrs. Harvey (Hazelton Harvey) had been scalded so badly that she died in the hospital in Vancouver. Mrs. Harvey was preparing the feed for the younger baby and Hazelton pulled the boiling water over on herself. She was taken to the hospital but the burn had been so bad that medical men could do nothing for the little sufferer.

S. H. Crum and W. E. Player went to Rupert yesterday on a business trip.

FRIDAY, FEBRUARY 13, 1914

The New Hazelton Citizens' Association has been re-organized for the year 1914 and although there was considerable difficulty in getting the annual meeting really pulled off, there has been some new blood injected into the officers and executive committee and the prospects are very bright for at least a good start. The executive committee has a big program of most important matters before it and the members cannot get busy too soon nor can they spend too much time upon their work. The town has now reached that point where united action upon the part of the citizens will accomplish a great deal. The citizens are asked to join with the executive committee and boost the town and their work along.

In the largest cities where many people have to travel several miles from town to their home and as many miles back to keep a business appointment, there may be some excuse if those people were a little late. In a town the size of New Hazelton where the people live in a comparatively small area, and where business affairs are not so pressing, there is absolutely no excuse for anyone being late at a public meeting or at any other time. There is not one in town whose business is so great that he has to rush to the last minute. But those who are really doing something are not the ones who are late.

There is nothing which will kill enthusiasm like tardiness. Every man in New Hazelton should make it a point to be on time, no matter how important or unimportant the appointment is. Punctuality is a great habit and one which will get more money and more respect and more happiness than almost any other habit. The man who is always late is also a man that usually has a cash balance on the wrong side. Look over your acquaintances and learn the truth. It is because those men are never on time.

Get up in the morning, be on time for breakfast, for work, for appointments, for public meetings, to pay your debts, to collect your bills. Do this through life and you will increase your own happiness and usefulness and give happiness to others. You will also be ready to die when the time comes.

A hale and active man of great age everybody loves. We want him to live on and on, and to be full of activity to the end. It is a selfish affection. It only means that we like long life and cherish everything that contributes to the expect-

ancy of it. That a man could go on fulfilling without slackening to near on the verge of a century of life the highest diplomatic and administrative duties is accounted an asset for all mankind. If we take little of the re-assurance this gives to our individual selves, still there remains in us enough of community consciousness to value it in that aspect. But the affection everywhere felt for Lord Strathcona was of a much better quality than this. It was the necessary response to a genial and friendly nature, never tired of being actively kind. It was this personal contact of his wholesome, hearty and optimistic spirit that, more than his practical ability, his resplendent career or his public gifts, commended him to men generally and especially to those who knew him. Few men who live to his years leave much of a gap when they quietly steal away. But Lord Strathcona has left a large place in the world's life that grew larger with every year that he lived. There will be much contention for the opening in London that almost none can equally fill, and there are other official positions where he will be missed.—Montreal Witness.

When we draw your attention to the advisability of using a good grade of office stationery; when we point out to you just where and why it pays, remember that there is a vast difference in the application given "good" printing by different printing offices. You want good printing. Every business man does. But do you want good printing regardless of cost? Certainly not. When an order is left with us we treat it with our best judgment, insofar as that judgment does not conflict with your wishes or instructions, using good stock, to the end that we do good printing--not good printing at any price, but rather do we make it good printing at a usable price.

Poultry, Dairy and Farm Helps

Electricity and Poultry

T. Thorne Baker lectured before the British Society of Arts on the application of electricity and radio-active earth to crops, etc. He said one of the essentials to successful electro-culture were electrical currents of an extremely minute nature. The same applied in the case of radio-active earth. Almost every individual plant or organism required its own particular type of electricity if the best results were to be obtained. An interesting application of effluve discharge was carried out with the blight on growing gooseberry bushes, but the most profitable application of electricity to the farm was that of chicken rearing with a one-inch induction coil, and could successfully treat a thousand chickens. In experiments carried out on Randolph Meech's poultry farm at Poole, an intensive chicken-house consisting of six flats, each large enough to accommodate 75 chickens, was electrified by a large helix of heavily insulated wire wound around it in turns about six inches apart. The current was applied for ten minutes every hour during the day. Six chickens, only out of 400 died, showing a mortality of only 1.5 per cent, and the chickens were ready for market despatch in five weeks as against three months. Mr. Baker's own first results were made on weight only, the chickens being given the same amount of feed and weighed at regular intervals. After three months the increase in weight of the electrified chickens was about 35 per cent. In another instance one set of chickens was grown against another, and the electrified chickens were only given two-thirds of the food given (per chicken) to the others. After one month the weight per bird was the same.

Does Each Cow Pay?

Some records of total production for the last seven months sent in to the Dairy Division, at Ottawa, showing how individual cows on adjoining farms vary in real earning capacity, will be of interest to the average farmer and of value to men who are planning for better results next year.

A ten-year-old cow that calved on March 12 has given since then just 2,812 pounds of milk and only 102 pounds of fat. A neigh-

boring 7-year-old, calved April 2, gave 6,420 pounds of milk and 228 pounds of fat, a little more than twice as much. In another contrasted pair in Glengarry, an eight-year-old, calved 6th April, gave only 3,394 pounds of milk and only 129 pounds of fat, while a five-year-old, calved March 26, gave 1,280 pounds of milk and 241 pounds of fat, or again more than twice as much milk.

Have these two owners of two such poor cows the wrong type of cow; is it the old placid contentment with "average" yields, which are liable to degenerate so quickly into poor yields. An income from the milk of one cow of only \$28, when another adjoining cow earns \$72, as seen above, cannot be considered satisfactory when a man is supposed to be keeping cows with the object of making money. A simple milk record shows definitely, which cows in the herd earn the most. Don't "average" good and poor together, keep the best, but make sure that each cow pays.

Get the Best Returns

Do not be content with a nominal profit per hen, but make each bird do her best for you. Some may feel that a dollar per hen profit is enough, but if you can make two dollars, is it not to your advantage to do so? One does not want to become avaricious, but if, by careful methods, the profit can be doubled, why is it not worth while? Look into the details of your plant and see if you cannot find some place where the profits are not as large as they should be. If you find that the hens do not lay as well in the winter time as you should naturally expect, find out the reason. If it is a matter of food, then get the food needed for this winter egg production. If it is better stock, then get a strain of winter layers. You have to feed the hens anyway, and it would be better to be putting the feed into good layers than into birds that simply live through winter. If your shortage seems to come through wrong management, then change the management. See to it that the eggs are sold for the best obtainable price. By looking after these details you will be able to make your plant produce a much better profit at the close of the year and the showing will be more satisfactory, if you have made it with the same number of birds that you have usually kept on the place.

LETTERS TO THE EDITOR

New Hazelton
 Feb. 10, 1914

Mr. Editor

Dear sir:—With your permission I would like to express myself regarding an amusing epistle which appeared in your issue of the 6th relative to myself. Will first thank my kind friend for bringing my name into publicity, even though it was evidently done with the sole object of knocking. I trust a lady would not be the author of such, but naturally from interpretation, I am compelled to believe as much. A sore head is to be petted but not admired by their method of attack through the columns of a newspaper. If a knock intended, it is a small mind who would be responsible for such a conglomeration of words, and if a joke, rather a crude form of composition.

I was asked by a number of ladies to coach their hockey team which I consented to do. This was, I am sure, appreciated at least, even though I might prove a doubtful success, however I am not responsible for the mistakes of newspapers, such as appeared in your issue of January 31st, presenting me with these other offices. It was taken as a joke by those interested, including myself therefore did not publicly contradict same as I gave the readers of the paper credit for a little common sense. I had already been joshed a great deal in person which I took in good part, but positively take exception to this being carried to the press and enlarged upon. "A pair of trousers on the ice as captain of a ladies' hockey team," rather absurd isn't it?

I wish to state that I did not accept any responsibility of any such office, more than coach and most assuredly did not assume the parts by any act or form. I considered my original appointment sufficient and an honor.

Was there an indignation meeting called? When, by whom and who was the lone attendant. This person evidently assumed considerable authority in voicing the opinion of the ladies' hockey club.

I have been misrepresented in all, and the person responsible for such an article displayed a most profuse depth of ignorance. It

lacked tact, wit and above all common sense.

If any person wishes to offer me any ridicule, why not confine it to me alone, and not belittle the other members of the boys' hockey club, who have, as a team, done exceedingly well considering the handicap they have experienced.

Yes! I may be only the little lamp that illuminates the "fire exit" door, but this light will continue to burn, and no "exit" for mine.

The ladies hockey club I am sure is not responsible for the misrepresentation of a certain almost clever individual.

Yours very truly,
 Walter L. MacKenzie

NOTE—Since writing the above I have learned who the author was, and it gives me pleasure to know that it wasn't from the pen of a lady. In admitting he claimed it was done with a view of joking only. I was very much surprised at this person and I hope only a joke was meant. This exonerates the ladies hockey club. The above letter is maintained so as to state my case and views for the benefit of those who are not familiar with the true facts of the matter.

W. L. M.

INDIANS MADE HIS LAST HOUSE

Rev. Father Hogan Laid to Rest in a Magnificent Hand-Carved Coffin—Buried Near Light House

Word has been received from Massett to the effect that just before the end came the late Rev. Wm. Hogan said farewell to his Indian friends and asked to be buried near the light house so that when the Indians looked toward the light house they would remember him and his teachings. The Indians, immediately after the death of the good man, set to work to make his coffin and they worked without a stop until it was completed and they had turned out a magnificent piece of work, all hand carved and beautifully finished. This was their mark of respect to the missionary who had helped them so often. Miss Hogan was unable to reach Massett until Thursday following her father's death, and as the government boat which conveyed her to the island was sighted the entire band of Haides went out in their canoes, and escorted the big boat with its mourners into the harbor. The late Rev. Wm. Hogan was loved and respected by the native and the white man alike.

Hazelton Hospital The Hazelton Hospital issues tickets for any period from one month upward at \$1 per month in advance. This rate includes office consultations and medicines, as well as all costs while in the hospital. Tickets obtainable in Hazelton from E. C. Stephenson and Fred Field; in Alder mere, from Rev. F. L. Stephenson, or at the Hospital from the Medical Superintendent.

SYNOPSIS OF COAL MINING REGULATIONS.

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

N. B.—Unauthorized publication of this advertisement will not be paid for.

Certificate of Improvements

"OLD IRONSIDES" GROUP, consisting of Old Ironsides, Iron Horse, Iron Mask, Iron Mountain and Limonite Mineral Claims, situate in the Omineca Mining Division of Range 5, Coast District.

Located on Summit creek, a tributary of Copper River.

TAKE notice that I, Boyd C. Affleck, acting as agent for Mancell Clark, owner, Free Miner's Certificate No. 65063B, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claims.

And further take notice that action, under section 37, must be commenced before the issuance of such Certificate of Improvements.

MRS. LAYTON

Pugley Street New Hazelton

Miss Sawle will leave Sunday morning for Prince Rupert where she will visit her brother, G. R. T. Sawle, for some time before going east. Miss Sawle has been connected with the Omineca Herald office staff for over two years and she made many friends in the district, who are sorry she is leaving.

There has been a great deal of inconvenience caused all over the town on account of the snow starting to melt on the roofs and freezing to the edge. On practically every building leaks have been caused, due to the fact that the building contractors have put no eaves on the roof. The roof is built almost flush with the wall and the result is constant inconvenience and a yearly expense. Those building in future should watch this matter.

COAL NOTICES

Omineca Land District—District of Cassiar

Take notice that I, Walter Skelhorne of Aldermere, B. C., farmer, intend to apply for a license to prospect for coal and petroleum over the following described lands: commencing at a post planted about four miles north and two miles east of the n. e. cor. of lot 129, and about 1 mile north of the n. e. cor. of claim No. 1, thence south 80 chains, east 80, north 80, west 80 to point of commencement, being 640 acres, and a relocation of the ground formerly held under coal license No. 7883, and known as claim No. 6.
Date Oct. 5, '13 Walter Skelhorne

OVERHEARD AROUND NEW HAZELTON

Send to Merryfield & Co., Prince Rupert, for wholesale grocery price list. It means big money to you.

Mrs. C. I. Bosworth and son, of Rose Lake, are visiting friends in town.

Mrs. Dave Miller arrived Wednesday night and will make her home here.

Mrs. and Miss Layton are leaving on Sunday to spend a few days in Vancouver on business.

The new lamps for the hockey club arrived on Monday night and have been installed on the hockey rink.

W. J. McAfee is making very favorable progress in the hospital and he will soon be able to get around again.

Victor Stone is in town on business. He reports excellent progress being made on the railway grading contracts.

Frank and John Brown and Mrs. John Brown came down from the Rocher de Boule camp on Wednesday night.

I. Anger made a business trip to Smithers last week and he has decided to make regular trips to that town every month.

W. E. Davidson, representing Smith, Davidson & Wright, Vancouver, was a business visitor in New Hazelton this week.

A. L. Sawle, manager of the Imperial Bank, Athabasca Landing, was recently elected mayor of that town by acclamation.

V. W. Smith came down from Stella Thursday morning after a business consultation with M. Sheedy. He will be in town for a few days.

Duncan Ross went down yesterday to Victoria after spending some time on his contract near Fort Fraser. He will be up next month again.

R. S. Wright and wife, Prince Rupert, are in town for a few days. Mr. Wright is here in connection with Northern Interior Land Co. business.

Miss Steele, who has been one of the foremost young ladies in the old town for the past year and a half, will on Sunday morning leave for Vancouver.

H. H. Little and his bride arrived in the old town Wednesday night after their honeymoon trip to the south. They received a warm welcome from their many friends.

Geo. Jennings was in town for a few days this week. He reports progress on the Great Ohio tunnel very favorable. He will have another shift on in a couple of days and rush the work.

G. O. Graham has purchased the house and lots on Tenth Ave. from Mrs. V. W. Smith. As soon as Mrs. Smith gets packed up, Mr. Graham will move his family over from the old town.

D. G. and Mrs. Stenstrom and P. Ryan leave Sunday on a short visit to Prince Rupert.

F. L. Charleson and wife and J. D. Charleson, Telkwa, are in town this week.

Angus Stewart was in town over Saturday night. He is feeling much better after his recent serious illness. He left Sunday morning and will spend at least a month at the hot springs.

Geo. Graham, manager of the Hudson's Bay Co., Hazelton, left last Saturday for Fort George. Later he will go to Babine lake, where the company proposes establishing a new trading post.

Mrs. and Miss Layton entertained a number of the young people in town to a sleigh ride to the hockey match on Saturday night in Hazelton and after the game refreshments were served in the Hazelton hotel.

Near Teeswater, Ont., it is believed a subterranean river has been discovered. A large stretch of the roadway and a field suddenly sunk fifty feet. It is believed that this river connects lakes Huron and Ontario.

N. P. Moran has moved his family to Smithers, where he will spend the winter. The Palace pool room will be kept open here and Mr. Moran will make regular visits to the town. When spring opens up other arrangements will be made.

ENJOYABLE TIME IN THE OLD TOWN

Many From New Hazelton Attended a Farce-Comedy—Refreshments and Dance Followed

There was a very large crowd from here drove to the old town Wednesday night and attended

the comedy "Turn Him Out" put on by local talent. The performance was very good and afforded many laughs for the spectators. Those taking part were Mrs. E. H. Hicks-Beach, Miss Peel, and Messrs. Milburn, Middleton and Brewer. The proceeds were in aid of the old town school.

After the performance refreshments were served followed by a very enjoyable dance.
